

2021 Ongoing Actions

Environmental impact

Joining the Renewable Energy Innovation Fund

- Goal: impact financing/impacted SDGs:

Banque Heritage joined the renewable energy Innovation Fund to finance the 2nd energetic transition in Uruguay. This project of national interest, counts with the contribution of the government, the UN and representatives of several private sectors of our society.

Sustainable investments

- Goal: sustainable finances/impacted SDGs:

Among our range of products we prominently include investments that are green or of companies that endorse the ESG principles so our Customers may also choose these investments.

Credit assessment - Sustainable view

Goal: sustainable finances/ impacted SDGs:

- In our credits analysis and renovations, social and environmental aspects are incorporated in credit assessment.
- An Internal Workshop of Environmental Regulation was carried out on the general regulatory framework regarding the environment and specifically of sensitive industries.

Sustainable materials

- Goal: material management/ impacted SDGs:

- We use paper that is elaborated 100% from sugar cane (0% tree fibre) and internally promote decreasing prints.
- We eliminated single-use plastic cups. Personnel received compostable customized cups as a gift.

Recycling paper

- Goal: taking care of the environment/ impacted SDGs:

- We use Repapel waste bins in our office to recycle.
- We supported Repapel in launching their Recycling station in Paso Carrasco. A solution to recover materials and waste.

Waste Recycling

- Goal: environmental care/impacted SDGs:

- We re-designed waste management together with Pacará, company dedicated to the comprehensive management of solid residues, that hires people from critical social contexts, who render us the organic, mixed and recyclable waste collection service.
- We trained the entire personnel, to learn what is done at national level with residues, see possibilities of improvement and for a correct classification of residues at work and at home.
