

## 2021 Ongoing Actions

# Sustainability Governance

### Sustainability Department and Committee

- Goal: more sustainable management/ impacted SDGs:

Our Sustainability Department acts in line with what was defined by the Sustainability Committee of which our General Manager, among other members, is a part. This Committee meets monthly to guide the sustainability strategy.

### Committed with transparency

- Goal: Information transparency/ impacted SDGs:

Our new web section where we share the sustainability activities we will be carrying out is in line with this commitment to share our task. And to strengthen the commitment, this year we will share our 1st public Sustainability Report, which we will continue to do annually.

### Sustainability Training of our executive committee

- Goal: more sustainable management/ impacted SDGs:

All members of the Executive Committee were trained in a sustainability and better practices Workshop with Gemma Consultores. Among other issues, we worked on integrating the UN Sustainability Development Goals, which set the world agenda until 2030, to our management.

### More training in sustainability

- Goal: more sustainable management/ impacted SDGs:

- Members of our Sustainability Department took part in workshops, courses and seminars in the following issues: Gender equality, Bank ethics and sustainable finances.
- Members of our Commercial and Credit Department took part in an environmental Regulation Workshop on the national and departmental regulatory framework regarding the environment.
